## WORK EXPERIENCE

### Fidelity Investments, Boston, MA

*Diverse Investors Student Experience (DISE) Intern*

June 2021-Present

- Complete projects in the equity, fixed income, high income, and strategic advisory divisions under the direct guidance of Asset Management professionals.
- Build financial models to assess the viability of investments in various stocks, bonds, and alternative assets.

### BLK Capital Management

*Equity Research Analyst*

February 2021-Present

- Work alongside analysts from around the world to manage 100% Black-owned, student run long/short equity hedge fund.
- Research companies and present investment recommendations to be considered by members monthly.
- Pursue BLK analyst education program and attend informative general education presentations to further enable thorough analysis of equity investments.

### True Equity, Philadelphia, PA

*Venture Capital Analyst*

February 2021-May 2021

- Analyzed top of funnel deal flow and sent analysis to Investment Committee daily.
- Conducted extensive research to identify nascent investment areas well aligned with True Equity's investment thesis, and presented findings to the fund's Managing Partner and True Platform's Co-CEOs.
- Wrote investment memos for select companies, and gave biweekly presentations outlining deals of highest interest.

### MIT Sloan School of Management, Cambridge, MA

*Entrepreneurial Strategy Research Assistant*

June 2020-February 2021

- Designed and create a detailed workbook to be used as a corresponding learning tool to the pre-existing textbook for MIT's Entrepreneurial Strategy course.
- Redesigned and updated the Entrepreneurial Strategy course website (Entrepreneurial-Strategy.net) in order to enhance aesthetics and increase usability.
- Scripted, recorded, and edited course content instructional videos to facilitate online learning.

### Tablecloth, San Diego, CA

*Social Impact Analyst*

June 2020-August 2020

- Corresponded with social scientists, data scientists, and data product developers in a fast paced, startup environment.
- Identified and sourced social impact measurement frameworks in the diversity, equity, and inclusion space.
- Carried out data transfer and cleaning to facilitate data model creation.
- Created a standardized dashboard to visualize client data models and evaluate their diversity, equity, and inclusion practices.
- Assisted marketing team with lead generation, prospect outreach, and website development and design.

## LEADERSHIP AND PROJECT EXPERIENCE

### MIT Minority Business Association Executive Board Member

- Organize and facilitate weekly meetings to educate students about career opportunities in business.
- Act as a mentor for underclassmen looking to learn more about the financial services industry and personal finance.

### Chairman of the MIT Interfraternity Council Diversity Committee's Addressing Issues Subcommittee

- Manage a subcommittee dedicated to identifying and addressing issues pertaining to diversity, equity, and inclusion in MIT's Interfraternity Council.
- Oversee and assist with the creation of recurring campus-wide surveys to gauge sources and appropriate responses to diversity issues throughout MIT's Greek life organizations.

### General Motors / MIT Momentum Design Challenge

- Developed autonomous vehicle features that improve automotive accessibility to people with visual, auditory, and physical impairments.
- Designed and built prototypes of new mechanical features for General Motors to test and implement in the future.
- Worked alongside industry experts who gave feedback on design feasibility, prototyping, and implementation.

## RELEVANT SKILLS

- Proficient in financial modeling, cost modeling, and budgeting.
- Proficient in website design and creation.
- Enjoy and thrive in fast-paced work environments.
- Excellent critical thinking, communication, and organizational skills.
